- 2000 emails (POP3) through web mail.
- www.ChristianWebHost.com (recommended host).

Annual Hosting Price: \$107.40

Total: \$157.40

More Information

Design

We believe organized and user-friendly websites generate greater results. We also believe churches and ministries should have the best available. Not commercialized but effective. We'll design a site that will exemplify the heart of your ministry. We use creativeness, research and interaction to get the best layout possible.

Software

We use Macromedia Contribute 3 to construct and design your site. We also use Microsoft Publisher and PhotoImpression. We can support provided Flash files, however, we do not currently create them.

Christian Web Host

A caring Christian web hosting company that strives to serve the internet community to the best of their ability with a special focus on Christian-owned websites and domains. They provide Christian quality service to those that host with them.

Price

We understand the importance of being good stewards when it comes to spending money. That is why our design fee is so reasonable. Many design companies charge hundreds of dollars for web design. We want every church or ministry associated with The Church of God of the Apostolic Faith to have an opportunity for a great website on the net. We can also find other hosting options which may cost less. Hosting and design prices are subject to change.
